Microsmin® Plus

for Leg Vein Health

Microsmin® Plus is an innovative Diosmin ingredient formulation featuring dramatically enhanced absorption and bioavailability for leg vein health.

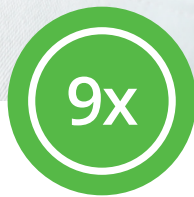

BEAUTY FROM WITHIN

Supports leg vein circulation for the healthy appearance of legs, as well as relief and reduction of leg discomfort, night-time cramps, prickly sensations, etc.*

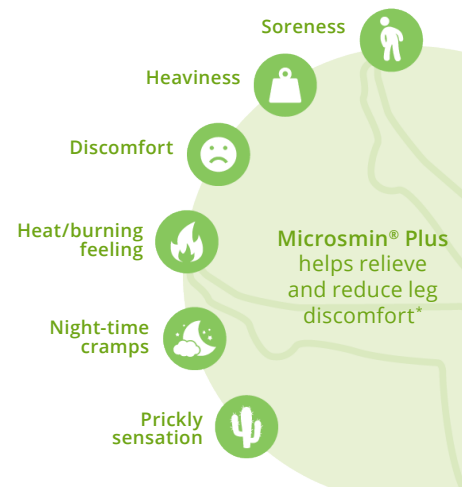

CLINICALLY STUDIED

In a gold standard clinical trial, significant leg health improvement was shown at both 4 and 8 weeks, as well as substantial improvement in quality of life at 8 weeks.

SUPERIOR BIO-AVAILABILITY

Owing to its superior technological profile, Microsmin® provides 9x increased bioavailability vs. standard Diosmin.

Microsmin® Plus is a proprietary, science-backed ingredient that relieves symptoms associated with leg vein disorders.*

Healthy leg veins are essential for the normal return of blood from the legs to the heart. Disruption of normal circulation can lead to leg pain, swelling, itchiness, restless leg syndrome, and a burning sensation, as well as heaviness.

Microsmin® Plus—an innovative Diosmin formulation with dramatically enhanced absorption and bioavailability—reduces the symptoms associated with leg vein disorders, improving quality of life.*

KEY HIGHLIGHTS

CLAIMS POSITIONING

- High absorption Diosmin*
- 9x increased bioavailability vs. standard Diosmin*
- Clinically tested/studied to promote healthy leg veins*
- Helps support leg vein health and circulation*
- Helps relieve and reduce leg soreness, heaviness, discomfort, heat/burning feeling, night-time cramps, prickly sensation*

CLINICAL RESEARCH PUBLISHED

- Comparative bioavailability of two Diosmin formulations after oral administration to healthy volunteers. Russo R, Chandradhara D, De Tommasi N. Molecules 2018;23:2174. doi:10.3390/molecules23092174.
- Efficacy of a low-dose therapy on improving symptoms and quality of life in patients with chronic venous disease: Randomized, double-blind, placebo- controlled trial. Serra R, Ielapi N, Bitoni A, et al. Nutrients 2021;13:999. https://doi.org/10.3390/nu.13030999.

COMPOSITION

- Diosmin derived from hesperidin found in bitter and sweet orange
- Min. 80% pure Diosmin and 90% total flavonoids

DOSAGE

- 570 mg once daily

FORM

- Granules

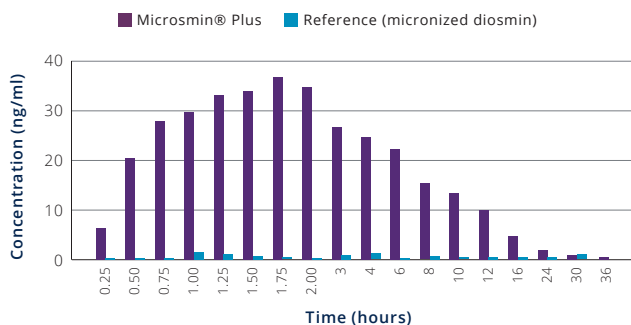

SUSPENSION

- Granules are ideal for suspension

DEVELOPER

- Giellepi S.p.A., Milano, Italy

Comparative Bioavailability of Two Diosmin Formulations After Oral Administration to Healthy Volunteers

Thanks to its superior technological profile, Microsmin® Plus supports the conversion of diosmin in its bioavailable form for a fast and optimized absorption over hours.
